Dear Dr. Ammazalorso,

Hope you are doing well.

Thank you very much for your positive response to join our journal **"CNS & Neurological Disorders - Drug Targets"** as a Section Editor. I am pleased to inform you that your CV has been approved for the section **"Medicinal Chemistry of drugs targeting CNS"**. We warmly welcome you to the Board and look forward to the successful collaboration.

You are requested to please provide the following details so we could update your name on our Journal's website.

1-Your complete mailing address and Tel/Fax/Email.

2-Please provide any one or all (if available) of the following details to be uploaded on the Editorial Advisory Board page of the journal. This will help your publication list to get more coverage and ultimately more citations.

Orcid ID:

Scopus Author ID:

Profile and Publication link:

Publication on Pubmed:

Publication on Google Scholar

Any other link of your complete Publications list:

3- As communicated earlier, we need a one-page abstract of the thematic issue with a proposed list of authors (**with respectable h-index (about 15)**) within 4 months of the appointment of each Section Editor for approval of Editor-in-Chief. The complete thematic issue may kindly be sent within 6 months. You are therefore requested to provide a tentative deadline to provide thematic issue Proposal.

4-Your photograph taken in full-face view directly facing the camera.

5-Your brief biography (50-100 words) to be uploaded on our website.

6-Please also suggest a few names in the relevant field suitable for joining the Editorial Board.

7- Please sign and return the enclosed agreement.

Thank you in advance for all your support to help ensure that this journal becomes a great success. I look forward to collaborating with you on this exciting journal.

Please do not hesitate to contact me in case of any query!

Regards,

Ramsha Urooj

Dear Dr Urooj,

I kindly thank you for the opportunity to join this journal as Section Editor. I am glad to accept your invitation. I send you my CV (in which the list of my publications is included) and a brief biography, with the section title (Medicinal chemistry of drugs targeting CNS) and my photograph.

Thank you again, have a nice day!

Alessandra

Dear Dr. Ammazalorso,

**CNS & Neurological Disorders - Drug Targets** aims to cover all the latest and outstanding developments on the medicinal chemistry, pharmacology, molecular biology, genomics and biochemistry of contemporary molecular targets involved in neurological and central nervous system (CNS) disorders e.g. disease specific proteins, receptors, enzymes, genes.

Bentham Science is interested in appointing an active Section Editor on the Journal's Board. In this connection, your name has been recommended by **Dr. Simone Carradori** for the post of Section Editor. If you are working in the field of the journal and are interested in becoming Section Editor then kindly send us your CV and a list of publications along with the Section title.

Your responsibilities, if you accept, would entail soliciting one thematic issue each year for the section. We need a one-page abstract of the thematic issue within 4 months of the appointment of Section editors. We expect to receive a list of authors with a respectable h-index (about 15) within 6 months and the complete thematic issue within 9

months. Section Editors are also expected to occasionally solicit/contribute review articles.

You may guest edit an issue yourself or nominate an eminent Guest Editor. The Guest Editor and corresponding authors invited for the thematic issue should all be active and eminent scientists having a respectable H-Index (15 or above). The thematic issue should be in a hot area and should comprise 10 to 14 comprehensive review articles contributed by eminent experts.

The peer review of the articles will be carried out by us without your involvement. After accepting the thematic proposal, it will be displayed on the website and a brief CV of the Section Editor and his/her photograph.

The Section Editor is entitled to the following benefits:

- The name of the Section Editor is displayed on the website of the journal along with the photograph and brief biography.
- Waiver of the Open Access fee is offered for any single article authored by the Section Editor in that thematic issue.
- 3 E-books of choice for each thematic issue published in the Section.
- Free of charge Quick Track publication for the article authored by the Section Editor, if published.
- 50% discount on optional services like the publication of color figures, ordering reprints, etc.
- Free Online access to the journal after the contribution of the thematic issue.
- The Guest Editor (if any) will be entitled to the same benefits.

We look forward to hearing from you in this regard

Regards,

Ramsha Urooj
